Xbox Live is always on and always buzzing with gamers looking to play. It's a complete entertainment experience, and we're here to guide you through its many activities and events. In no time at all, you'll be getting to the games, making friends, and discovering for yourself the world of Xbox Live.

5 MUST-DO XBOX LIVE TIPS

1 KEEP YOUR FRIENDS CLOSE

Friends, and a populated Friends List are the keys to your Xbox Live experience. Forget Artificial Intelligence playing with people you know, you've met, or who share similar interests is what makes Xbox Live gaming superior. With a well-populated Friends List, you can be sure to have plenty of willing members who want to play your favorite games the way you want to play them, when you want to play them.

How do you populate your Friends List?

■ When you've enjoyed playing with a member or if you want to add your friends or family, access your Friends List from the game menu.

■ Select "Add to Friends List."

When that person accepts, you're connected and will be able to see when they're online and what they're playing.

2 GET TO KNOW OPTIMATCH AND QUICKMATCH

Two of the most dynamic Xbox Live features that really impact your fast access to the best online games are OptiMatch and QuickMatch. Wherever you find these features, you'll quickly learn to love them both as they get you into the games you want to play fast and easily. (Turn the page for more information on how they work.)

NEED TO FIND A GREAT GAME QUICKLY?

QuickMatch

QuickMatch (available in all Xbox Live online enabled games) instantly searches through all available matches in your game of choice, and then picks the one with the best connection to you and showing at least one available player slot.

■ In the multiplayer menu of your Xbox game, the QuickMatch option is at the top. Select it, and it scours all of Xbox Live to find games in progress or waiting to start.

It then displays its search results and gives you the option to join the match or search for a different one. This is a great way of finding new people to play with or against, and it'll put you in the online fray in record time.

WANT TO PLAY YOUR FAVORITE MAP OR MODE?

OptiMatch™

OptiMatch lets you quickly find games with a certain number of players, on any specific level you like, and in any particular game mode you prefer (such as "Capture the Flag," "Deathmatch," etc.).

■ From the multiplayer menu on the front screen of your game, select the OptiMatch button. OptiMatch is available in all Xbox Live online enabled games.

The filtering of server information lets you find a game with optimum performance for your connection, and lets you play what you want, how you want it.

TAG, YOU'RE IT: ABOUT YOUR GAMERTAG

Your Gamertag is the online name that will identify you in every single Xbox Live game. Remember that your Gamertag is permanent, so it's important to choose a Gamertag that suits you best.

HERE ARE THE TOP TIPS FOR GETTING THE NAME YOU WANT, AND THAT YOU'RE PROUD TO CALL YOUR OWN:

1. When signing up for an Xbox Live account, make sure to think about your

ideal Gamertag, be it a nickname, a favorite word, or a mix of several words.
2. Have two or three back-up names. Many Gamertags are taken, so be prepared to go to Plan B.
3. Consider using numbers in your Gamertag (e.g., B1AD3, SH0KK3R).
4. Take your time and find a name that you really like. Don't get frustrated, and find a way to get a tag you'll be happy to own for years to come.

CHAT WITH FRIENDS EVEN WHEN YOU'RE NOT IN A GAME

Voice Chat

Xbox Live is a great place to hang out with friends, even if you don't have an Xbox game in the tray! How?

- With your Communicator plugged in, from the Xbox Live menu on the Dashboard, simply access the "Friends" menu and select the friend(s) you'd like to chat with.
- Highlight "Invite to Chat," and press the "A" button.
- That person will receive the invitation no matter what game they're playing.

- Once they join you, you'll enjoy real-time chat as though you were calling on a cellphone, just like you do in your Xbox Live games!

Want to chat with a family member while waiting to compete in that *Project Gotham Racing 2* match-up? Need to set a play date with a buddy from your Friends List? It's easy to use this amazing chat functionality, so be sure to take advantage.

KNOW THE POWER OF SILENCE

Mute

Did you know that your Xbox Live Communicator has a mute button? It's located just below the green light on the Communicator's base; the light turns red when the button is pressed. Pressing mute will save your fellow players some confusion and keep other conversations private when chatting with new people who enter the room. It can also keep out distractions from people whose tone and style you might not want to have coming through your headphones.

FRIENDS

Artificial Intelligence opponents might be fine in small doses, but playing against human players is what makes Xbox Live such a thriving online gaming community. That's why creating a list of your friends who are Xbox Live members, or populating it with new friends met while playing your favorite games, is your guarantee of a great Xbox Live experience. How so?

- What's a good game without the pre- and post-game banter? And it's fun to just hang with your buddies, chatting using the Xbox Communicator.
- Team up in killer *Rainbow Six 3* matches, for example, work effectively together, and trounce your opponents.
- Stories will be told and legends made.

With its ability to connect with your friends regardless of what game you are playing, your Friends List is the backbone of the social community that is Xbox Live.

TOP TIPS FOR BUILDING A GREAT FRIENDS LIST

SHOW UP AT XBOX LIVE PRIME TIME

Make sure you check out the Prime Time schedule of nights devoted to great gaming. There's something for everyone, letting you enjoy Xbox Live the way you want to experience it. That way, you'll meet friends with similar tastes and develop a ready group of like-minded gamers available to play whenever you want.

Find a full schedule of the month's Prime Time programming in **Official Xbox Magazine** or at www.xbox.com/en-us/primetime.

GETTING YOUR FRIENDS AND FAMILY ONLINE

Who better to play with or against than your regular friends and members of your family? Make sure all your buddies know about the great services, features, and amazing gameplay on Xbox Live.

JUST ASK!

Don't be shy! If you've just had a great time gaming with someone and you think you'd like to play with them in the future, don't hesitate to ask them if you can add them to your Friends List. You can be sure they'll say yes, because they just had as much fun as you did!

LIVING IT UP

Make the most of your online experience with these handy tips.

HELP IS EVERYWHERE

If you've got questions about your Xbox Live account, or if you need any information, answers are available through a variety of sources. If you need to speak to someone directly, a toll-free call to 1-800-4MY-XBOX

(that's 1-800-469-9269) will immediately put you in touch with an Xbox specialist who will quickly and happily assist you.

Sometimes there's nothing like another Xbox Live member's help or information. Find them on the forums at <http://forums.xbox.com>.

- **LOG ON TO WWW.XBOX.COM**
- Click on the "Community" section to view all the Xbox forums.
- Search for your desired forum topic (maybe Xbox hardware, Xbox Live, or an Xbox game).
- In a few clicks of the mouse, and a quick search, you'll have the answers you're looking for.

PATIENCE IS A VIRTUE

You've got the message that getting together with friends is the best way to enhance your own Xbox Live experience, right? It's also in your interests to take responsibility for your community. Having respect for others is key to the friendly environment open to everyone. Remember, you were a newbie once, and you can help out fellow gamers easily by answering their questions.

TROUBLEMAKERS

Just like in the real world, not everyone on Xbox Live is a saint. Some are just there to spoil the game experience — they're known as "grief players." If you encounter a troublesome or abusive player, select their name from the "Players" list and select "Send Feedback." Your comments will be sent to Microsoft, and players who cause too much trouble will be banned from Xbox Live.

Your online experience can be seriously impacted by the behavior of others. That's another reason to have a well-populated Friends List: to guarantee a game with someone you know and the game experience you want, every time you head onto Xbox Live.

ADVANCED TIPS

LINK IT UP!

Easily navigating the Xbox forums, receiving information on big offers and new services, and enjoying a personalized login to www.xbox.com/en-us/live can all be managed through your PC in one easy stroke.

Take advantage of this feature and you'll have access to your own customized Xbox.com web page that lets you view your Friends List to see who's online, manage your Xbox Live account, check out the hottest music videos and celebrity interviews, and more!

It's done simply by linking your Gamertag to your Microsoft.NET passport. Your .NET passport is your unique online identity that saves you from having to input your details on all the personalized sites that you visit. If you use a Hotmail® email account, then you already have a .NET passport – it's your Hotmail email address. If you don't, it's free and easy

to set up a Microsoft.NET passport by going to www.passport.net and filling in the quick details. Once you do, you'll have your passport to a smooth online experience that's personalized to your own tastes and interests.

HOW DO YOU DO THIS? SIMPLY FOLLOW THESE STEPS:

- If you have a Microsoft Hotmail email account, you already have a Microsoft.NET passport. To link your Gamertag, head to www.xbox.com/en-us/live and click on the My Live tab.
- When prompted, enter your Hotmail username and password. This will then link your address to your Gamertag and you'll be plugged in to all the features that will improve your online experience. If you don't have a Hotmail account, get a .NET passport at www.passport.net. It's simple, fast, and free!

SUBSCRIPTION UPDATE

Remember, if you have another card with a subscription code, it's easy to keep your account active so you'll never miss a moment of the action. Or lose your Gamertag.

Through your Account Management page of the Xbox Dashboard you can modify your subscription by just plugging in the new subscription number. Follow the simple instructions on-screen and you'll be good for more months of great gaming.

Remember, as long as your details are up-to-date, your monthly or annual subscription will automatically renew so you don't need to bother yourself, and the great action, the great community, and all the features you love from Xbox Live just keep coming.

1. XBOX DASHBOARD

Using the Xbox Dashboard (accessed by starting your Xbox with no disc in the disc tray), select Account Settings. From this screen you can:

- Opt in to receive the updates.
- Check that all your information is correct.
- Ensure that you get the full complement of communications that help keep you in the know about the variety of Xbox activities.

2. XBOX.COM

WHAT THE BOX CAN TELL YOU

You can instantly tell if a game is Xbox Live online enabled by looking at the game box. See the orange bar above? That's your immediate indication that you'll be able to find fellow members playing this game online or that it's **Live Aware**, meaning that it can receive single-player downloads.

Check the back of every game pack, too, for more detailed information on the availability of downloadable content, maximum number of players, and other features such as HDTV support.

Here's a selection of profiles and tips on just a few of the great games you can play on Xbox Live.

HALO 2

NEW TITLE!

The game everyone has been waiting for...

Bungie Studios Microsoft Game Studios
 November 9, 2004 Available November 9, 2004 M - Blood & Gore, Language, Violence

What it is

The sequel to the best-selling game on Xbox (and arguably one of the best video games ever), now comes complete with amazing Xbox Live features. Master Chief is back on Earth - which means the Covenant is, too. And it's a well-prepared enemy needing a well-prepared savior of the galaxy.

The Xbox Live experience

Playing alone on Xbox Live is the first big detail to get excited about, but that's only the beginning. Playing as the Covenant, wielding

two weapons at once, boarding vehicles manned by opponents, and destroying parts of the environment for strategic use are just a few high points of the cavalcade of functions and gameplay options coming with Halo 2.

Most Exciting Feature

Pick any one! The destructible vehicles look amazing, as do the shiny new Elite Covenant characters, but boarding a moving vehicle by kicking out its driver has to be the high point to look for so far.

Dual-wielding weapons, boarding enemy-occupied vehicles, hitting the nitro boost for extra speed, and even playing as the Covenant? Here's the single best reason to have your Xbox Live account in good standing!

DOOM 3

Saving Mars from hell

id Software/Vicarious Visions
 Activision Number of players: 1-4
 M - Blood & Gore, Intense Violence
 Late 2004

What it is

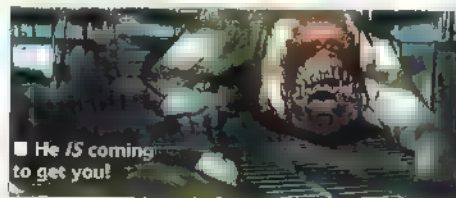

The classic creep-out shooter is remade for Xbox, bringing with it some of the most amazing (and terrifying) visuals you've ever witnessed. In the unenviable shoes of a space marine at the UAC facility on Mars, you'll acquire an arsenal of the classic armaments - chainsaw, shotgun, plasma rifle, rocket launcher, and even the BFG - and wield them with impunity against hell's hordes.

The Xbox Live experience

Sneak and stealth are words not in the Doom vocabulary, and nowhere is that more apparent than on Xbox Live. Deathmatch will be back

in vogue as up to four mannes will scour the corridors of the supplied multiplayer maps, controlling weapon spawning points, health, and armor shards. One-on-one tournament, team deathmatch, and last-man-standing modes will be available, but the Xbox kicker is co-op play.

Exclusively built for Xbox Live, cooperative play lets you blast through the terrifyingly claustrophobic space station, make occasional runs on the Martian surface, and storm the depths of hell itself with a buddy. Being able to communicate with a real person as imps, cacodemons, arch-viles, and zombies appear out of the ether will not only be a thrilling partnership, but also give psychological support as the horrifying scenes of the hellish invasion unfold.

He IS coming to get you!

TOM CLANCY'S GHOST RECON 2

Show military might

Red Storm Entertainment
 Ubisoft Number of players: 1-16
 Holiday 2004 ESRB RP

What it is

As the sequel to one of the most popular Xbox Live games ever, Ghost Recon 2 will bring more military action, but this time from a new perspective. The over-the-shoulder (OTS) view lets you see more of the world and the detailed models of your squad of ghosts on maneuvers. The first-person mode is also still available for those wanting the utmost authenticity and realism - and with a game that looks and plays like GR2 does, that's just another reason it should be on your must-buy list.

Aim. Pull the trigger. Watch the fireworks.

The Xbox Live experience

Expect a ton of Xbox Live options and features both at ship and beyond. All of the single-player game's 15-20 missions will be playable in cooperative mode, as well as in the other supported gameplay options like team deathmatch. A number of new modes supplement the original's weighty options, adding even more value to the package.

Beyond launch, expect to see more multiplayer missions available for download; new single-player missions may also be released. With planned support for all the latest Xbox Live functions, Ghost Recon 2 should offer the ability to create clan logos and take part in clan tournaments, and maybe even create your own maps using level-editing tools.

Based on Red Storm Entertainment's success in crafting one of the most successful titles ever on Xbox Live, expect another hit with this updated, improved, and totally revamped sequel.

Crouch to get a good straight aiming angle when the spider-like trites attack.

MORTAL KOMBAT: DECEPTION

The definitive name in fighters

Midway Midway RP
1-2 Fall 2004

The most famous, longest-running 3D fighting game series in the world is punching and kicking onto Xbox Live this fall. Along for the ride in this latest iteration of the storied franchise are new characters, new powerful moves, and, as you would expect, brand-new fatalities. Interactive backdrops featuring deathtraps and background weapons add an extra layer of strategy to the classic fighter.

The Xbox Live Experience

A number of the single-player game modes will be available for battling on Xbox Live. The most prominent, naturally, will be straight-up, one-on-one fighting.

In addition to the core beat-'em-up action, a number of mini-games will also be playable on Xbox Live. These include *Chess Kombat*, a chess-based board game featuring real-time battles, and *Puzzle Kombat*, a two-player game starring bizarre characters in *Super Puzzle Fighter*-like action.

The frantic action mayhem you'd expect of this classic franchise is matched only by the superlative visuals that dazzle on-screen. Get in the fight this fall.

Take your moves onto Xbox Live.

TOM CLANCY'S SPLINTER CELL PANDORA TOMORROW

The best, most innovative Xbox Live game ever

Ubisoft Shanghai Publisher Ubisoft
1-4 Available NOW
T - Blood, Drug Reference, Violence

What it is

Two sides in perfectly balanced opposition:

- The spies: Nimble, acrobatic U.S. Government spies needing to infiltrate an area and either neutralize, extract, or sabotage ND133 virus canisters.
- The mercenaries: Heavily-armed, highly lethal mercs hired by the ARGUS corporation to protect the ND133.

The Xbox Live Experience

You've never seen or played anything like this before. Communicating with your teammates, intercepting your opponent's transmissions, talking tactics and finding players that perfectly complement your own abilities - it's an online gaming experience like no other.

Most Exciting Feature

- The spies' weaponry is non-lethal (their rifles temporarily stun mercs or disable motion sensors), but they can kill if necessary.

If you can get behind a mercenary as a spy, you can grab him, taunt him, and then break his neck.

- While spread-eagled above an alleyway, jump on top of a passing merc, crushing him underneath
- Sneak up behind a merc, press the "A" button to grab him, then press "A" again to break his neck. It's one of the most satisfying moves in any multiplayer game today.
- In defending the ND133, the mercenaries are well-prepared with:
 - A fully automatic rifle.
 - A helmet-mounted torchlight.
 - Motion-tracking vision.
 - Electromagnetic vision that illuminates all powered objects, such as spies who have their thermal or night vision turned on.

Use your thermal vision to see through paneled ceiling tiles. But be warned! The mercs can see you through the ceiling if they turn on their electromagnetic vision mode while you have one of your vision modes activated.

Double-tap left or right on your left thumbstick if you've engaged a spy and he's trying to get behind you and grab you. The double-tap will initiate a quick 180-degree spin, turning the tables on that pesky spy!

Mercenaries can help out their partner by zooming in on the enemy and sniping the spy's head.

Learn the maps on your own as spy and mercenary to get an edge online.

What it is

It's unanimous: *Top Spin* is the greatest tennis game ever made. Anyone can pick up and play it, yet its gameplay runs deep enough that you continue to learn new tips every time you play.

The Xbox Live Experience

Create your own players and take them online! Different play styles may crush one opponent but not faze the next.

- Always return your opponent's serve with the slice shot ("X"). It curves and they can almost never return it hard, putting you in control of the point.
- Don't underestimate the impact of the lob shot. If your opponent crowds the net, using the "Y" button to lob to a far corner should make him think twice about charging.

For a friendly sports game, you can't beat *Top Spin*.

TOM CLANCY'S GHOST RECON: ISLAND THUNDER

Developer: Red Storm Entertainment
Publisher: Ubisoft Available: NOW
Number of players: 1-16
ESRB: M - Blood & Gore, Violence

What it is:

You play a Ghost in a near-future war on global terror. Through dense jungles, urban war zones, and ancient ruins, you and your squad move unseen, eliminating hostiles.

■ There are all kinds of outdoor locales to battle in, including murky swamps.

The Xbox Live Experience:

The action is one-shot, one-kill, and as such the exciting level of tension in *Ghost Recon* is palpable, and working effectively with your team is essential. Using the *Xbox Live* Communicator as a virtual walkie-talkie, you coordinate strategies with and lend support to your teammates as you attempt to neutralize the other players.

Up to 16 players can enter the fray, and cooperative support allows you and your friends to battle through the single-player campaign.

TOP TIPS:

- It is rarely a good idea to stand up straight. Always crouch (press down on the D-pad) when the match begins. This makes you a smaller target.
- Coordinate with your teammates prior to the match and make sure that only one of you is carrying heavy explosives. Your team's weapon loadouts must complement one another.
- Elevation is a huge factor in owning an environment. Always try to get the high ground on your opponent.
